

GHANA WATER LTD

PRESS RELEASE

ATTN: NEWS EDITOR

DATE: 22ND JULY 2024

FOR IMMEDIATE RELEASE

REPAIR ON TRANSMISSION LINE AT BREMAN AHENFO TO AFFECT WATER SUPPLY IN THE KUMASI METROPOLIS

- Management of Ghana Water Ltd. (GWL), Ashanti Region wishes to inform its cherished customers and the public of repair works on the 900mm (36") transmission line at Breman Ahenfo.
- The transmission line was perforated by a road contractor's equipment that was used in constructing drains from the Suame roundabout to Breman Ahenfo on the 12th of July 2024 and was temporarily salvaged to restore supply to residents.
- Management has requested for the shutdown of the Barekese Water Treatment Plant which supplies water to the metropolis to enable engineers of GWL to repair the line on Wednesday, 24th July 2024 to restore the transmission line. As a result, customers are advised to store enough water ahead of this important exercise.
- The areas to be affected will include Suame, Tafo/Pankrono, Asokwa, Bantama, Sokoban, Kronum, Barekese, Manhyia, Oforikrom, Kwadaso, Atasamanso, Kotwi, Adum, KNUST, Odoum, Asokore Mampong, and surrounding areas.
- Management regrets the inconvenience this may cause and assures customers that supply will be restored immediately work is completed.

END.
